

# Don't Wait. Vaccinate.

## An Open Letter From Your Trusted Healthcare Providers

As your community's trusted healthcare providers, it is our responsibility and privilege to provide the very best care to you and your families. As part of that care, it is also our duty to offer you medical guidance and information during a health crisis like the COVID-19 pandemic.

It is in this spirit of guidance that we come to you and ask you to trust us. Please, get the COVID-19 vaccine.

This is the very best way to protect yourself and those you love from this dangerous virus. Vaccination is the way to help end the pandemic.

COVID-19 is the most challenging health crisis many of us have ever faced. It has taken lives, caused long-term health issues for many survivors, and left emotional scars that may last a lifetime.

For the thousands who have received the COVID-19 vaccination, the benefits reflect the science. There is a tremendous amount of scientific data that proves the vaccine is safe and extremely effective. And as healthcare providers, we see evidence of that every day.

It is time to do your part to help stop the COVID-19 pandemic. Please, get the COVID-19 vaccine as soon as possible.

If you have questions about the vaccine or how to get it, please contact your healthcare provider or visit your medical provider's website.
