# CITY MANAGER'S BUDGET TRANSMITTAL LETTER

FINANCE DEPARTMENT

Tel: (843) 665-3162 Fax: (843) 665-3111

July 1, 2023

Mayor and Members of City Council City of Florence, South Carolina

I am pleased to present the balanced budget for the fiscal year beginning July 1, 2023 and ending June 30, 2024. This budget, adopted by City Council on June 20, 2023, serves as the policy document that establishes the City's financial direction for the fiscal year. The City's budget is prepared annually in accordance with direction and guidance from City Council and through the efforts of each of the City's department directors and staff.

This budget, both Operating and Capital, makes possible the many services and facilities provided by the City which contribute to and improve upon the quality of life that each resident of the City of Florence enjoys. The City has embraced a **Full Life. Full Forward.** community lifestyle for its citizens and visitors. While encouraging our citizens to live a full life by enjoying the many art venues, recreation facilities, and varieties of businesses; the City, community leaders, and citizens work together to move Florence forward by fostering entrepreneurship, encouraging a healthy lifestyle, and offering cultural events which showcase local artisans as well as traveling artists and entertainers.

The City continues to provide a wide variety of services and programs to its citizens for virtually every age and lifestyle. The City is continuing its mission to improve the quality and standard of living of citizens in areas that have been underserved for many years through the City's neighborhood revitalization program and improving facilities and infrastructure in those areas. This budget seeks to continue the essential services that protect and promote residents' quality of life, such as neighborhood policing, maintaining our athletic and recreational facilities, supporting local youth and senior programs, and other services that make our City a great place to live and work.

This past year, the City completed construction on the City's Sports Complex located adjacent to the Dr. Eddie Floyd Florence Tennis Center. The Sports Complex's centerpiece, a 1,500-seat baseball stadium serves as the home to the Florence Flamingos baseball team. The Sports Complex facility also provides a regulation high school league baseball field and three additional fields for recreation league play bringing Florence community youth baseball together. This allows for more interaction among community members involved in the baseball program. The complex is also home to a track and field venue for recreational leagues to practice and compete. There has been a great amount of interest in the Sports Complex, and we have received requests to host tournaments in both baseball and track and field. The completion of the complex will play a critical role in expanding our sports tourism efforts.

#### BUDGET DEVELOPMENT

The budget development process began in early February with Department Directors formulating budget needs for their individual work groups and Finance estimating revenues for the upcoming fiscal year. After this, a series of meetings were held internally to develop a proposed balanced budget to present City Council. A planning and budgeting work session was held with City Council

and staff on May 24, 2023. In this meeting, a budget overview and several City challenges, projects, and programs were reviewed and discussed. Some current projects as well as those in the planning phase were discussed at this meeting. Community and neighborhood development was also discussed during this meeting.

During this work session the staff updated councilmembers on the effects that supply chain issues and increased costs were having on projects, programs, and service delivery within the City. Council was also updated on the 2021 Stormwater Revenue Bond projects. These projects were approved in the City's fiscal year 2021-2022 budget after City Council voted to increase the Stormwater Fund budget to fund the debt service for a \$7 million dollar bond. Several first phase stormwater projects, consisting of cleaning and point repairs have been completed. Engineering and design work is on-going for second phase projects. Again, cost increases continue to present challenges with these projects. In addition to project work, Council, through their bond approval, authorized a Citywide Stormwater Masterplan. This planning project is ongoing with an estimated completion of Summer 2024.

#### BUDGET SUMMARY

The fiscal year 2023-24 budget totals \$115,266,530 and is summarized by fund as follows:

General Fund	\$48,681,500
General Fund Debt Service Fund	694,000
W/S Utilities Enterprise Fund	43,899,980
Stormwater Utility Enterprise Fund	1,814,050
W/S Utilities Construction Fund	12,279,000
Stormwater Utility Construction Fund	204,000
W S Utilities Equipment Replacement Fund	1,745,000
Stormwater Equipment Replacement Fund	250,000
Hospitality Fund	5,699,000

Included in the FY 2024 budget is an 8% cost-of-living adjustment for all employees. The cost-ofliving increase will become effective January 1, 2024. Also included in the budget is a projected increase in the City's premiums covering employees under the State Health Insurance Plan, with no increase for employees. The City's experience rating remained at zero which has helped to keep the increase to a minimum. However, the rate increase for the City is 3.7%.

In 2017, certain changes to the South Carolina Retirement System were signed into state law to address the state's unfunded pension liability. This law incorporated a change to the City's contribution rates effective July 1, 2018, which would continue to increase 1% annually through July 1, 2022. However, due to the COVID-19 pandemic, the State of South Carolina did not pass a fiscal year 2020-21 budget, instead the legislature passed a continuing resolution to keep the funding level the same as fiscal year 2020. This meant that the 1% increase for the City's retirement contributions that were expected to occur for fiscal year 2021 did not happen. The legislature decided to extend the final increase to July 1, 2023. The City's contribution rate for FY 2023-24 for both the SC Retirement System (SCRS) and the Police Officers Retirement System (PORS) will both increase by 1% to 18.56% and 21.24% respectively. The employee contribution rate for SCRS is capped at 9%. The employee contribution rate for PORS is capped at 9.75%.

The City's main operating funds are briefly discussed below:

**General Fund** - The City's General Fund is the primary operating fund that provides for essential City services including public safety, public works, recreation, athletics, planning and development, building inspections and permits, and administrative/support services. The approved FY 2023-24 General Fund budget totals \$48,681,500 representing an approximate increase of 8.4% over the prior year original approved budget.

Property tax operating millage was increased 5.0 mills over prior year operating millages of 59.1 mills. Debt service millage remains the same as the prior fiscal year. The total property tax rate is 68.1 mills, which includes 64.1 operating mills and 4.0 mills for debt service.

The roll cart equipment replacement fee will remain at \$2.75 per month. This fee is used to provide for the replacement of roll carts and to continue the cycle of residential sanitation truck replacement. The City's costs for providing sanitation services are subsidized by property taxes and business license fees. Average privately contracted residential services range from \$20 to \$95 per month for weekly garbage collection.

To aid in balancing the General Fund budget, the City will continue the mandatory hold requirement for replacement hiring up to 16 weeks. Several additional actions were incorporated to balance the General Fund budget including operational funding request adjustments and capital funding request eliminations.

Funding for community programs in FY 2023-24 was proposed at \$368,800. During the City Council Meeting on June 20, 2023, that amount was amended to \$388,800.

*Water and Sewer Utilities Enterprise Fund -* The Water and Sewer Utilities Enterprise Fund budget totals \$43,899,980 for FY 2023-24. This amount represents a 10.83% increase from the prior year original approved budget.

The City's combined water and wastewater system is a highly regulated enterprise that requires extensive fiscal resources for long-term viability to serve growing demands of the Florence area. The system continues to face increasing operating and capital expenses related to its collection system. In response to these and other challenges, in 2020 the City performed a comprehensive study of the operating, capital, and long-term debt service requirements to determine revenue sufficiency for these needs. Based on the recommendations of this plan, in 2020 City Council adopted an ordinance incorporating a 10-year rate plan. This ordinance revised and updated the City's water and sewer rate schedules through fiscal year 2030. Therefore, the Water and Sewer Utilities Enterprise Fund budget for FY 2023-24 includes a rate increase for both water and sewer services of 2% and 3%, respectively, each in accordance with the 10-year rate schedule. Due to the successful acquisition of a major industrial employer in the Florence Utility District, the timeline for expansion plans of the Water and Wastewater Systems will need to be pushed up for earlier completion. This will require bonding action by the City and will necessitate changes to the currently adopted rate schedule. This action will be addressed outside of this budget.

A current challenge that the City's combined water and sewer utility system faces is that the Jefferies Creek Sewer Collection Interceptor is nearing capacity. This interceptor is the principal means of wastewater conveyance to the City's wastewater management facility. Until the City acquired the Timmonsville utility system, the Florence facility was the only wastewater treatment plant available to the City. Utilizing the Timmonsville wastewater facility gives the City a second facility and the ability to reconsider the future of its collection system. Due to the limited capacity

of the Timmonsville sewer treatment facility, staff is continuing to develop options to relieve demands on the Jefferies Creek Interceptor.

**Stormwater Utility Enterprise Fund -** The Stormwater Utility Enterprise Fund budget totals \$1,814,050 for FY 2023-24. This amount represents a 5.47% increase over the prior year's original approved budget.

Since the adoption of the Stormwater Utility and the supporting rate structure in 2001, the City has completed numerous projects funded with revenues generated by the Stormwater Enterprise Fund. In a continued effort to improve the stormwater drainage systems throughout the City, in 2021, a \$7 million, 15-year bond issue was approved to address projects identified by the Stormwater Utility department that necessitate the use of long-term debt. This also includes a city-wide stormwater study that will improve our abilities to plan for and mitigate stormwater issues. These projects and plans are proceeding as scheduled.

**Hospitality Fund** - The FY 2023-24 Hospitality Fund budget totals \$5,699,000. This amount represents a total increase of \$817,500 or a 16.75% increase from the FY 2023-24 original budget of \$4,881,500. The Hospitality Fund provides for expenses designed to promote tourism and enhance the tourist experience. Approximately 24.54% of the Hospitality Fund budget is used to finance capital and debt service costs for tourism-related facilities including the Florence Center, the Sports Complex, the Florence Tennis Center, a Regional Recreation and Gymnasium Facility, and an appropriation for the 2016 Special Obligation Bond for downtown tourism related improvements. Operational funding for the Florence Center, athletic facilities operations, the Florence Museum, Florence Downtown Development Corporation, Historic District street lighting, and restroom facilities rented at the James Allen Plaza represents approximately 68.10% of the Hospitality Fund budget.

Downtown and other tourism promotions, redevelopment incentives, and contingency funds are also included in the FY 2023-24 Hospitality Fund budget and represent approximately 7.36% of the total anticipated expenditures in this fund.

#### CONCLUSION

Through this budget, the Council of the City of Florence strives to improve relationships between itself, city staff, and the community that we serve. We continue to improve our downtown areas and other amenities to raise the quality of life for our citizens and attract new businesses to relocate to the Florence area and provide new employment opportunities.

Another key element in promoting a better quality of life is the City's continued commitment to the North, East and Historic West area neighborhoods which are home to some of the most underserved population in our city. Neighborhoods are where families reunite, and friends gather to celebrate. To help improve the conditions in these underserved areas of our city, we are continuing to fund neighborhood redevelopment projects in some of the most depressed areas of our city. Through these residential development efforts, the City is successfully removing blight, improving living conditions and stabilizing targeted neighborhoods. The goal is to improve the quality of life for all our citizens.

The City strives to develop events for the area that bring people from all cultures, races, and social and economic backgrounds together. Events such as Florence After Five, Oktoberfest, Pecan Festival, Downtown Christmas Magic, Chocolate Crawl, the City Center Farmer's Market, and other events offer entertainment, culture, and food for all to enjoy.

The FY 2023-24 budget reflects the vision and dedication by both City Council and staff to the community that we will stay the course to maintain and further enhance the vibrancy and livability of our city. City staff stands ready to follow City Council's leadership as we continue the pursuit of an improved quality of life for the citizens of Florence, moving Full Life. Full Forward.

# City Council

FY 2023-24

### **Council Function**

"The governing body of the city shall henceforth by a city council composed of seven (7) members, one of who shall be mayor, and all of who shall be residents of the city." (City Code, Section 2-20 (a))

"The mayor and three (3) council members shall be elected at large and three (3) council members shall be elected from the districts shown on the map on file in the office of the municipal clerk as Districts I, II, and III. The three (3) council members elected from districts must reside in the district they represent both at the time of qualifying for election and during their term of office." (City Code, Section 2-20 (b))

The City of Florence operates under a councilmanager form of government. Under the councilmanager form, Council has all legislative powers of the municipality and determines all matter of policy. The municipality employs a manager to act as chief administrator of the council's policies and, to the extent possible, separate the policymaking function from the administrative function. (SC Code, Section 5-13-30, 5-7-160)

## **Community Services**

FY 2023-24 Community Services

## **Department Function**

The Community Services Department primarily serves City of Florence residents in community areas targeted through the Neighborhood Revitalization Plan and *City of Florence Comprehensive Plan.* Programs and services administered through this department are administered with local and Community Development Block Grant (CDBG) funding.

The department administers the Neighborhood Revitalization Program, a first-time homebuyers program, emergency rehabilitation assistance, rental assistance, and provides neighborhood improvement support. The focus of the department is to enhance quality of life for low to moderate income community members.

## **Fire Department**

FY2023-24

## **Department Function**

The Florence Fire Department delivers a diverse suite of services to residents of the City of Florence:

- Fire Suppression Division
- Fire and Life Safety Division
- Emergency Preparedness and Risk Management
- Training Division
- Building Department

The Florence Fire Department is an Insurance Service Office (ISO) Class 1 department, the highest designation level. The department works to maintain this level of fire protection service through a comprehensive firefighter training program and a robust pre-fire planning program that supports updated fire inspections and response plans for each multi-family and commercial building within the city limits.

The Fire Department is also responsible for:

- administration of the fire data processing systems (NFIRS)
- firefighter recruitment and enlistment
- fire-related training and public education programs

## **Fire Suppression Division**

The Fire Suppression Division is made up of six fire stations with firefighters who respond to various emergency requests including fire extinguishment, medical first response, hazardous materials incidents, vehicle accidents, electrical issues, technical rescue, and more. This division also conducts pre-incident plans for local businesses, fire safety education, and installation of smoke detectors.

## **Sanitation Division**

FY2023-24 Public Works Department

## **Department Function**

The Sanitation Division of Public Works provides garbage, recycling, and yard debris removal services weekly to over 14,000 residential units and over 560 commercial units.

Residential garbage, recycling, and small yard debris are collected once per week. Large yard debris is collected as needed during special collections since they require specialized equipment.

Clean yard debris free of other types of garbage is collected at the Public Works office and is recycled into mulch.

## **Recreation Services**

FY2023-24 Recreation Services

## **Department Function**

The Recreation Services Division plans, organizes, implements, and supervises a comprehensive suite of recreational programming and leisure activities for youth, adults, and seniors in the City of Florence. The division operates six community centers in various city-owned parks within the city limits.

The division is also responsible for coordinating several city-sponsored events and programs including youth camps, park activities, community events, and active lifestyle programs for seniors.

# **Engineering Department**

FY2023-24 Planning, Research, & Development

### **Department Function**

Engineering is responsible for planning, designing, and administering capital improvement projects and assisting private developers in the development of property.

Engineering works with City residents and developers in determining availability to the water and sewer utility, and will assist with solutions for how to provide water and sewer access. The department, in conjunction with the Planning team, works with developers in the design of subdivisions or commercial projects, and assists in developing the best design solutions so a project is complimentary to the utility system, adjacent properties, stormwater, and the Comprehensive Plan.

The engineering department also funds GIS and the Downtown Development Office.

#### Engineering is responsible for:

- project managing capital improvement projects of the city;
- review and feasibility studies for development plans;
- review of public and private water, sewer, and stormwater plans;
- economic development;
- utilities inspection (road, water, sewer, and stormwater) and locates;
- consultation with SCDOT, SC DHEC, and other governmental agencies
- stormwater review and permitting as the designated MS4 agency

# Wastewater

FY2023-24

## **Division Function**

The City of Florence operates two wastewater management facilities, the **City of Florence Regional Wastewater Management Facility**, and the **Timmonsville Wastewater Management Facility**.

Wastewater Operations collects waste from approximately 22,500 approved connections located inside and outside City limits. It serves northern Florence County including the City of Florence, Town of Timmonsville, Quinby, and select portions of Darlington County via the Darlington County Water and Sewer Authority through a franchise agreement.

#### **City of Florence Regional Wastewater Facility**

- Capacity is 22 million gallons per day
- Treats an average of 13 million gallons per day

#### **Timmonsville Wastewater Management Facility**

- Capacity is 2 million gallons per day
- Treats an average of 1.7 million gallons per day

The wastewater treatment process in a combination of the following unit processes at the two watewater facilities. Wastewater Operations treats wastewater by a process that consists of flow equalization and metering, screening and grit removal, primary and secondary clarification, diffused air, solids handling and dewatering, aerobic digestion, return activated sludge, return, chlorination, and dechlorination.

# **Surface Water**

FY2023-24 Utilities Department

## **Division Function**

City of Florence drinking water is produced from both a surface water treatment facility and groundwater plants.

The Surface Water Treatment Plant withdraws raw water from the Great Pee Dee River where it is treated to produce safe and clean drinking water. Surface Water is currently permitted to produce ten million gallons of potable (drinkable) water daily and presently produces on average about seven million gallons a day. This facility is operational 24 hours per day, seven days per week.

The facility has a certified on-site laboratory and staff and also utilizes third party contract laboratories to supplement facility operations.

# Groundwater

FY2023-24 Utilities Department

### **Division Function**

The City of Florence groundwater system is comprised of fourteen groundwater plants, twenty-nine well sites split between the Midville and Black Creek acquifers, fourteen elevated tanks, and two water booster pump stations.

The two booster pump stations are integral to bolster system pressure within the Timmonsville portion of the distribution system as the elevated tanks in Timmonsville are approximately twenty feet higher due to topographical elevation and tank heights.

Groundwater wells and treatment plants produce an average of 5 MGD per day of potable (drinkable) water. Once groundwater is treated, it enters the distribution system. Elevated storage tanks provide for peak water usage, fire protection, and maintain system pressure.

# **Distribution Operations**

FY2023-24 Utilities Department

### **Division Function**

Distribution Operations is responsible for the maintenance of the City of Florence's water distribution system. Distribution Operations serves approximately 34,000 customer connections and is also responsible for the installation of water taps for new service connections two or more inches in size.

The distribution system delivers potable (drinkable) water produced from groundwater and surface water treatment facilities through a network of pipes nearly 750 miles in total length. Distribution Operations delivers safe drinking water from the source to the end consumer's tap/water meter through approved installation and repair techniques and regulatory practices.

# **Collections Operations**

FY2023-24 Utilities Department

## **Division Function**

Collections Operations focuses on the sanitary sewer system. The system consists of approximately 462 miles of gravity sewer mains and force mains, 125 lift stations, and 7,000 sewer manholes. At present, there are approximately 22,500 customers connected to the City's sanitary sewer system.

The sanitary sewer collection system transports wastewater or sewage away from homes, schools, businesses, or industries to one of the City's two wastewater treatment facilities for treatment.

Maintenance of the sanitary sewer collection system includes repairs to sewer mains, manholes, lift stations, and sewer services. The Collections Operations division also installs water and sewer taps for new utility customers. The City's responsibility for sewer service begins at the sanitary sewer cleanout located within the public right-of-way.

# Compliance

FY2023-24 Wastewater Department

### **Department Function**

The Compliance team identifies and improves stormwater related conditions that may potentially be harmful to the City's sanitary and storm sewer system. This team leads the City of Florence in regulatory compliance with Municipal Separate Storm Sewer system (MS4) Phase II requirements. Compliance requirements range from grease interceptors and construction site run-off to minor and major illicit discharges such as paint poured into a storm drain or sanitary sewer overflows.

Compliance also operates the Backflow Prevention Program designed to ensure proper devices are in place to prevent contaminants from entering the City's drinking water.

The City's over-street banner program is also housed within this department for advertising various community events.

FY2023-24 Utilities Department

# **Division Function**

The City of Florence's Stormwater Collection system transports and diverts water after rain events away from roadways, parking lots, and rooftops into larger bodies of water such as creeks, streams, or rivers.

The City's Stormwater Division completes only designated work within the corporate City limits of the City of Florence and only for those roadways dedicated to and maintained by the City. All other roadways are controlled and maintained by the South Carolina Department of Transportation (SCDOT). The division is also responsible for street sweeping inside the City to assist in debris control in and around curbs and gutters along major thoroughfares and heavily traveled roadways. Sweeping streets helps to reduce sand and pollutants that can enter the City's drainage system causing blocked pipes and poor water quality in adjoining waterways.

The Stormwater Division routinely cleans drains, pipes, streets, and ditches to remove debris obstructing the flow of water and makes structural improvements to ensure that the stormwater system is efficiently and reasonably handling water flow.
