FLORENCE, SC – The City of Florence plans to implement new route changes for weekly Sanitation services beginning the week of **April 19, 2021**. Over the past 30 years, the city has maintained the same garbage collection routes and added residential units as they were constructed and/or annexed to existing collection routes. To increase efficiency and prepare for future growth of our City, the City of Florence has recently evaluated the current sanitation routes and made changes to accommodate the collection of household residential garbage, recycling materials and yard waste. Every route will have changes, but not all households will be impacted by those changes.

For those households with route changes, the new collection assignments will begin on **Monday, April 19, 2021**. Maps and other details will be provided at www.cityofflorence.com and on various city social media outlets. We encourage customers to visit the City of Florence website and use the interactive map provided to verify your collection days. For questions regarding the pending route changes, please contact the Public Works Department at (843) 665-3236.
